

# NOTICE OF PUBLIC HEARING ON PROPOSED PROJECT AND FINANCIAL ASSISTANCE RELATING THERETO

Notice is hereby given that a public hearing pursuant to Section 859-a(2) of the General Municipal Law of the State of New York (the "Act") will be held by City of Albany Industrial Development Agency (the "Agency") on the 9<sup>th</sup> day of November, 2016 at 12:00 o'clock p.m., local time, at 21 Lodge Street in City of Albany, Albany County, New York in connection with the following matters:

Capital District Apartments LLC, a New York limited liability company (the "Company"), has presented an application (the "Application") to the Agency, a copy of which Application is on file at the office of the Agency, requesting that the Agency consider undertaking a project (the "Project") for the benefit of the Company, said Project consisting of the following: (A) (1) the acquisition of an interest in an approximately 1.96 acre parcel of land (tax map number 65.17-2-13) currently with an address of 2 Thurlow Terrace in the City of Albany, Albany County, New York (the "Land"), together with an approximately 85,000 square foot building located thereon (the "Facility"), (2) the renovation and rehabilitation of the Facility, including but not limited to, parking resurfacing and landscaping improvements, and (3) the acquisition and installation thereon and therein of various machinery and equipment (collectively, the "Equipment") (the Land, the Facility and the Equipment being hereinafter collectively referred to as the "Project Facility"), all of the foregoing to constitute a Section 8, senior and handicapped housing facility to be owned by the Company and leased to residential tenants and any other directly and indirectly related activities; (B) the granting of certain "financial assistance" (within the meaning of Section 854(14) of the Act) with respect to the foregoing, including potential exemptions from certain sales and use taxes, real property taxes, real estate transfer taxes and mortgage recording taxes (collectively, the "Financial Assistance"); and (C) the lease (with an obligation to purchase) or sale of the Project Facility to the Company or such other person as may be designated by the Company and agreed upon by the Agency.

The Agency is considering whether (A) to undertake the Project, and (B) to provide certain exemptions from taxation with respect to the Project, including (1) exemption from mortgage recording taxes with respect to any documents, if any, recorded by the Agency with respect to the Project in the office of the County Clerk of Albany County, New York or elsewhere, (2) exemption from deed transfer taxes on any real estate transfers, if any, with respect to the Project, (3) exemption from sales taxes relating to the acquisition, construction, renovation and installation of the Project Facility, and (4) in the event that the Project Facility would be subject to real property taxation if owned by the Company but shall be deemed exempt from real property taxation due to the involvement of the Agency therewith, exemption from real property taxes (but not including special assessments and special ad valorem levies), if any, with respect to the Project Facility. If any portion of the Financial Assistance to be granted by the Agency will follow the procedures for deviation from such policy set forth in Section 874(4) of the Act prior to granting such portion of the Financial Assistance.

If the Agency determines to proceed with the Project, the Project Facility will be acquired, constructed, reconstructed and installed by the Agency and will be leased (with an obligation to purchase) or sold by the Agency to the Company or its designee pursuant to a project agreement (the "Agreement") requiring that the Company or its designee make certain payments to the Agency.

The Agency has not yet made a determination pursuant to Article 8 of the Environmental Conservation Law (the "SEQR Act") regarding the potential environmental impact of the Project.

The Agency will at said time and place hear all persons with views on either the location, nature of the proposed Project, or the Financial Assistance being contemplated by the Agency in connection with the proposed Project. A copy of the Application filed by the Company with the Agency with respect to the Project, including an analysis of the costs and benefits of the Project, is available for public inspection during business hours at the offices of the Agency. A transcript or summary report of the hearing will be made available to the members of the Agency.

Additional information can be obtained from, and written comments may be addressed to: Sarah Reginelli, Chief Executive Officer, City of Albany Industrial Development Agency, 21 Lodge Street, Albany, New York 12207; Telephone: 518-434-2532.

Dated: October 26, 2016.

21	Chris Bombardier - Ostroff Associates, Inc. Francine Kellman - Preservation Development Partners
22	Brian Raddock - Preservation Development Partners
23	

1 MS. REGINELLI: Good afternoon, 2 everyone. We will definitely have additional 3 Board members trickling in, because we do know a few will be a little bit late. Seeing we do have 4 5 a number of the members of the public speaking 6 today, we are going to open up right on time. 7 I am Sarah Reginelli. I am CEO of the 8 City of Albany Industrial Development Agency in 9 connection with the project which is the subject 10 of this public hearing. Today we are holding 11 this public hearing to allow citizens to make a 12 statement for the record relating to the 13 involvement of the Agency with a project for the 14 benefit of Capital District Apartments L.L.C., a 15 New York State limited liability corporation. 16 The proposed project is located at 2 Thurlow Terrace and consists of the renovations 17 18 to an 85,000-square-foot structure, containing 19 136 units of Section 8 affordable housing for the 20 elderly and disabled. 21 Copies of the notice of this public hearing are available on the table. 22 Now, unless there is any objection, I am 23

1 going to suggest waiving the full reading of the 2 notice of this public hearing and instead request 3 that the full text of the notice be inserted into 4 the record.

5 I will also note that general 6 information regarding the Agency's general 7 authority and public purpose are contained in a 8 separate statement and that will also be entered 9 into the record.

10Before we start the public hearing11portion, I'd like to first introduce the project12applicant and ask them to make a brief13presentation with respect to the proposed14project. And I think Chris is back there?

15 MR. BOMBARDIER: Thank you. I'm Chris 16 Bombardier with Ostroff Associates. I saw some 17 of you at the community room last week.

As Sarah said, we have a building on 2 Thurlow Terrace. It's part of a portfolio that Preservation Development Partners is purchasing in the Capital Region area. There's four properties total, about 500-plus units, affordable Section 8 housing that they are buying. The company itself only does Section 8
 housing. They purchase, preserve, rehab and
 hold. They've rented over 6,000 units, a
 majority of them in the metro New York area, some
 in the Hudson Valley.

6 With respect to this one in particular, 7 we are putting about \$21 million into the 8 building. That includes acquisitions and 9 upgrades. We are using a mix of financing. The 10 PILOT agreement and the PILOT deal that we are 11 asking for before you is critical to the project 12 going forward. The project would not be able to 13 go forward absent the PILOT assistance.

We have a first mortgage with Freddie Mac, which will require us to maintain that building as affordable housing for the entire term of the mortgage, which would be 35 years. So we are making a commitment that will be Section 8 affordable housing for the elderly and handicapped for the period of our loan.

21 We intend to, immediately upon closing, 22 and that's hopefully by early December, mid 23 December, start renovation of the building, and

1 that will include top-down renovations from
2 everyone's individual units. That will include
3 kitchens, bathrooms, flooring, paint, appliances,
4 you name it, inside the unit. It's going to be
5 top-down renovation, about \$40,000 per unit
6 invested.

As far as the building goes, we are going to be doing common areas, exterior, security cameras, HV/AC systems, heating ventilation and pretty much everything else that's the nuts and bolts of the building.

12 We anticipate construction to take about 13 18 months. We do that with the residents in 14 They have it down to a science now. place. 15 They've done it at most of -- or all of the purchases that they've made. So they will start 16 17 at the top floor and with a certain trade, that 18 usually is kitchen or bath. It will be done, 19 each individual project will be done in about a 20 day's period. There is no need for the residents 21 to go anywhere.

22 We are very good and they are very good 23 at using contractors and the folks they've used

in all the other projects of mitigating dust,
 anything that would result from the construction
 that they are doing and making sure the residents
 are comfortable and really as least disruptive as
 possible.

6 About 75 construction jobs in year one. 7 I like to start -- as I mentioned, it will start at the top floor and work their way down. 8 So 9 once the construction crews, say for example the 10 bathrooms start first, they get to the middle 11 part of the building, the next trade will start 12 at the top, so they are continually going down 13 from the building and doing it in a way that 14 residents see the least bit of construction.

15We are asking for, aside from the PILOT,16mortgage recording tax exemption and sales tax17exemption.

18So I'll answer any questions you folks19have, if you'd like me to, if I didn't touch on20anything.

21 MS. REGINELLI: What we can do is go 22 through our public hearing and then for the 23 Finance Committee meeting we can open it up for 1 questions as well there. But we'd like to be 2 able to get right into the public comment. Thank 3 you, Chris.

I'll now open this public hearing at 4 5 12:06 p.m. By way of operating rules, if you 6 wish to make a public comment, please sign in on 7 the appropriate sign-in sheet. I've got it here and I think most of you have already. I will 8 9 then call on the individuals listed in order that 10 they appear on this sheet. Please wait to be 11 recognized and then stand and state your name, 12 address and affiliation for the stenographer. 13 Please keep your comments to five minutes so that 14 all persons may have a chance to comment for the 15 record.

A record of this public hearing will be prepared and reviewed by the members of the Agency in connection with consideration of the proposed project. A copy of the record of this public hearing will be presented to the Mayor of the City of Albany and inserted into our record.

22Again, the purpose of this public23hearing is not to field questions, but to solicit

1 public comment. I will now refer to the sign-in 2 sheet to identify those who wish to comment on 3 either the nature and location of the project 4 facility or the proposed financial assistance 5 being contemplated.

6 The first member of the public that I 7 have on my list wishing to speak is Joan 8 Matthews.

9 I live in a very nice MS. MATTHEWS: 10 apartment at 2 Thurlow Terrace and it doesn't 11 need to be fixed in any way and I'm sure I'm not 12 the only person in the building who would say the 13 same thing. The changes and the renovations that 14 are suggested are outrageous to me. This is a 15 nice building. You sort of get the impression that it isn't a nice building, but it is, it's 16 17 very nice. So my first objection is these 18 renovations are not necessary.

19And my second comment is it's wasteful,20very wasteful. Good appliances and cabinets are21going to be thrown out and it's anti-ecological.22Waste is not ecological. And if it does go23ahead, dust is a tremendous problem. You can't

1 say that there's not going to be dust when 2 there's destruction. And there's going to be 3 noise, plenty of noise. And there are going to be strangers in the building that we don't know. 4 5 So these are my main objections. It's not 6 necessary. 7 MS. REGINELLI: Thank you, Joan. The next member of the public is G. 8 9 Figueroa. Sorry if I'm saying that wrong. 10 MS. FIGUEROA: Good morning. Thank you 11 for the opportunity to address the committee. I 12 have two or three issues that I think are 13 important. Number one, the type of security 14 system that we have and how extensive it is. I 15 think that the security system should start at 16 the main gate, because once a car or persons have 17 walked -- if you don't know the project location, 18 it's by Washington Park, accessible from the main 19 street. So you don't know who's walking on that 20 street necessarily. Once that car is in our 21 parking lot, they are in our property. So 22 there's no checks and balances there. If we had 23 some kind of card system where you let yourself

in using a card, then you'll need a code. That,
 I think, will be much more effective.

3 The laundry room is another problem. We have a lot of home aides and personal assistants. 4 5 They come in and work in the building. According 6 to New York State law, they are supposed to wear 7 ID when they are on the property. They do not. 8 So we have all these people running around that 9 nobody knows who they are. Nobody knows if they 10 belong there. We have no idea. Number one, 11 enforcement of that regulation.

12 Number two, making the entrance to the 13 laundry room a secure area. The other problem we 14 had is once you're in the building and you get to 15 the elevator, you can go to any floor once you're 16 buzzed in. Because you hear a buzzer, doesn't 17 mean the person who buzzed you knows you. So now 18 we have somebody who has access to nine floors, 19 138 units. That's not security. So you have a 20 camera, great, congratulations.

21 The other problem we have is we are 22 abutting a building that from the street you can 23 jump on our little three-inch fence and you're on 1 the property. So what kind of security is that? 2 That's not security. In that area you have 3 transition, but you also have a population that 4 is in transition. So that leaves elderly people 5 vulnerable to people that we don't even know if 6 you belong there.

So there's a compliance issue with New 7 8 York State law for having ID on. I think they 9 should register. We should know who you are. We should know who your client is and we should know 10 11 when you are supposed to be there. Because what 12 happens is, people from the public come in and 13 use our laundry room. Oh, yeah, it's very 14 convenient for them. Not so convenient for the 15 tenant, okay. That's a big problem there.

16 The other issue we have is that it is about proportion. If you say this is senior 17 18 housing, then the majority of tenants should be 19 seniors, because that's what your sign says at 20 the front door. However, you have a mixed 21 population. You have a population sometimes that 22 suffers from mental illness. After staff leaves, 23 the tenant is left to deal with whatever shows

1 up. So if you want to prance around on the 2 outside and pull all the flowers out and act like 3 you're on LSD, who's there to stop you? Nobody. So we have to look at who's coming in, who's 4 5 there and, going forward, proportion, because you 6 cannot expect people 62, 82, 92 to handle and 7 work around people with severe mental 8 disabilities. I don't even understand why they 9 are considered. And that's not being 10 discriminatory towards someone with a -- why are 11 you allowed not to be in supervised living if 12 apparently you're not able to do so? Doesn't 13 make any sense to me. But we are the people that 14 have to deal with it. Some people feel if you 15 say anything about it you're discriminating 16 against people with disabilities. It's not 17 reasonable for me to have to wrestle with the 18 mental state of someone who's out of their mind 19 for today. If you have a psychotic break, that's 20 not my job to handle it, but you're required to 21 because you either tiptoe around it or you're in 22 awe of what you're seeing. That doesn't make 23 sense to me.

1 At our age we should have a peaceful, 2 safe, clean environment. We didn't sign up for all the rest that goes on. You have people that 3 have come out of jail. In our lease agreement it 4 5 says if you violate your parole you can be 6 removed from the building. Well, gee, I don't 7 know who's on parole. I don't know for what they 8 are on parole, but we are all living there 9 together. Doesn't make sense to me. I am not 10 saying everybody should be evicted for no cause, 11 but I think, I do think that proportion. Seniors 12 is what you say the building is about. That 13 should be the predominant population, not this 14 mix that nobody understands and we're left to 15 fend for ourselves. Doesn't make any sense to 16 me.

17 The other problem we have in our 18 building is that the local police department has 19 this attitude that everyone there is crazy 20 because they are called so frequently to 21 intervene, and for mental health issues and odd 22 situations. Their response is, to me, presents a 23 problem, because anytime you come to a building

1 where you think that the majority of people are 2 in a mental institution, and we are not, and 3 start dealing with us as if we were, discounting, that makes no sense. That makes it dangerous. 4 5 It's a lack of due process. My address should 6 not dictate the type of police response that I 7 get or how they handle it. And that's an issue 8 there. It's an issue I have experienced.

9 A tenant came, went crazy, went into the 10 parking lot, bashed up three cars. Nobody paid 11 me for my repairs. They are not responsible. 12 But you have that tenant there. So if you bring 13 them in and then you tell me everything that 14 happens is on me, I should have insurance. 15 Hello. We are not living in Section 8 because we 16 have disposable money to spend on remedying 17 situations that we don't need to control. It 18 makes no sense. It's very frustrating when you 19 see that.

20 And so while it's nice to put in new 21 bathrooms and all of that, I think we should 22 dispense with telling people that there's no dust 23 associated with construction. We need to be up

front. There is dust associated with
construction. Whoever heard of bashing a wall
with no dust? And the fact that you can put up
plastic, look, be honest, people. There is going
to be a lot of noise. There is going to be a lot
of dust, okay, and there will be a lot of people
in and out.

8 The first thing we should know is the 9 stages of the project. What is the project 10 timeline? No one gave us the scope of the 11 project. What are the quality standards that are 12 being attached to this project? Because if we 13 are going to put in all this money and you are 14 doing it for seniors, we are intelligent enough 15 to read quality standards and know whether or not they were met. We can also read project 16 17 timelines. That's not very complicated. That 18 should be posted. Everybody should know.

19And the people get a sense that there is20secrecy. This public hearing was not posted in21the building where the public hearing is about.22How does that happen? So you had a public23hearing and the public, who is going to be

impacted, wasn't notified. That to me is a
problem starting either here, City Hall, somebody
dropped the ball here. Doesn't make sense. You
can assure yourself of less participation, but
lying is going to be the biggest problem there.

6 People don't like change and the older 7 people get, as we all know, they get very settled in what they want and don't want. So you may 8 9 have a timeframe and a project timeframe that's 10 not realistic because of the resistance and 11 issues that you're going to run into. You have 12 people who are bedbound. You have people who are 13 on oxygen. That needs to be accounted for in the 14 project timeline.

15 MS. REGINELLI: We are a little over 16 five minutes, so if you got more to say, 17 please --

18 MS. FUGARO: Thank you.

19 MS. REGINELLI: All right. Great.

20The next, it looks like Jerry Murphy and21undecided as to wether --

22 MR. MURPHY: Yes.

23 MS. REGINELLI: Great.

1 MR. MURPHY: Bear with me folks. My 2 name is Jerry Murphy. I live at 2 Thurlow Terrace, Apartment 4-0. I am dealing with the 3 vestige of a very serious case of laryngitis. 4 5 I'll make this brief. 6 In difference to what my fellow 7 residents have expressed, yes, there have been 8 problems, some of them serious, especially the 9 problem that we had with emergency generators in 10 2014. That problem seems to have been rectified, 11 but we have been assured that it is going to be 12 further addressed by the new perspective owners. 13 I just want to make note. I came to the 14 building in 2005 and the heating system that we 15 had then was atrocious and we had problems all the time and the hot water system was a small, I 16 17 believe 20-gallon -- 10-gallon tank under our 18 kitchen cabinets. They are still there. So in 19 terms of repairs that have to be done, we've been 20 told that's very important that all the cabinetry 21 be taken out so that they can get rid of those 22 old tanks that were never fully drained of water 23 so that they are potentially a health problem.

So I speak -- I know I speak on behalf of many of the residents in our building. We are welcoming the new perspective owners and what they plan to do. We have been assured by them the different things that they are going to do and we're hoping that they are going to add a few more to it.

The parking thing is a problem, but I 8 don't know what the perspective owners could do 9 10 in that regard. Having a gated system does pose 11 a lot of problems in that you have to have some 12 kind of mechanism to stop the cars and some kind 13 of pass key or a card. It already -- the problem 14 already exists with our fob keys, that they are 15 given out freely by the residents to friends, 16 family members and even people that are not 17 related to them. And I just ran into a fellow 18 the other day who had one of the fobs for, albeit 19 for his mom, but still, just trying to be 20 responsible for safety in our building, I gently 21 confronted him and asked, because I recognized 22 him as not being one of the residents. Being 23 there ten years, I pretty much know everybody

1 who's there.

2 Regarding the problem with dust, and I 3 would just encourage the perspective owners, I know, I have done a little bit of construction in 4 5 the past, so I know there are vacuum systems 6 available for those people to make the job easier and to absorb and take in all that dust. 7 8 So I just want to encourage the City and 9 the IDA to improve this. I see nothing but 10 positive things coming from it and we do need the 11 repairs for the better enjoyment of our property. 12 Okay. Thank you very much, appreciate it. 13 MS. REGINELLI: The next speaker on the 14 list is Council Member Leah Golby. 15 MS. GOLBY: Hi. So I'm Council Member 16 Golby. I represent the Thurlow Terrace building 17 and also the 400 Hudson building, which was 18 recently renovated through IDA financing. At 19 that, you know, I should preface by saying that 20 was done in the same fashion as this was done, 21 with the residents living in place. It wasn't 22 always easy, but when it was done, it is so much

23 improved and the residents are much happier.

1 This project sounds to me like it is a 2 win-win project. My understanding, I could be 3 wrong, but my understanding is that the PILOT payment to the City is actually going to be a bit 4 5 more than what we're currently receiving. So 6 this helps our tax base, while still providing 7 affordable housing for our vulnerable citizens in 8 our neighborhood. So to me, that alone is a 9 win-win.

10 I have met with a group, groups of 11 residents twice. Probably about four weeks ago 12 for the first time. You know, I let some people 13 know about the prospective purchase, because the 14 residents had been, you know, inspectors had been 15 coming in to check things out and the residents 16 really didn't know what was going on, because the 17 building manager didn't really know what was 18 going on. There were kind of rumors going around 19 that the building was probably going to be sold, 20 but, you know, as residents who are vulnerable, 21 who are low income, they certainly had concerns 22 about what was going to happen to their building. 23 Was it going to go co-op, you know, condo?

1 So when I went there and read them the 2 key pieces of the application, including -- first 3 I read the, you know, the summary of the project. There was applause. They broke out in applause, 4 5 and then I also let them know that it was 6 required, the type of financing that the 7 perspective owners were getting would require the building to stay Section 8 housing, and there 8 9 was, that was also a big relief for the residents. 10 11 So I think overall it is being very well 12 received by the residents. We met with them 13 again last week, where it was announced --14 actually, some folks from the staff here 15 announced when this IDA meeting was going to be. 16 I, unfortunately, you know, I did receive the 17 e-mail and I, you know, apologize to the 18 residents for not getting out -- getting the 19 e-mail out to them last Friday when I received 20 it, but it was announced last Wednesday at a

21 meeting of the residents.

22 At that meeting also, the perspective 23 buyers came and answered questions, which they

really didn't need to do. You know, so they were
at the building, they answered -- you know, they
came up from New York, Mr. Raddock and Ms.
Kellman, and they answered the questions and I
think they helped to put not everybody's mind at
ease, I know, but many of the residents -- most
of the residents' minds at ease.

8 They also were open to some of the 9 concerns that the residents brought up that they 10 didn't know about, in terms of, you know, saying 11 this is what we need to hear, so that they may be 12 able to change the scope of their project.

13 So, you know, I think that covers the 14 basics. There certainly are people who are 15 concerned about dust. I mean, you've heard that 16 loud and clear.

17 The speaker, the one speaker here who 18 did say that, you know, she doesn't think it's 19 needed, she's not the only person that I've heard 20 it from that, you know, that is weary of 21 construction going on in the building, but the 22 vast majority of the people in that building 23 think that this is needed and necessary and they

1

are relieved. So thank you.

2 MS. REGINELLI: Thank you. And, Indira, 3 I have you on the list, but not as a speaker. 4 Would you like to speak? 5 MS. HOGAN: The only thing I would like 6 to add is that there's a concern with the common 7 area, especially at the doorway coming into the 8 building for access by those who are handicapped. 9 There needs to be some sort of a leveling out or something in that area. 10 11 And I would just agree with most of 12 what's been said for those who are for the 13 changes that are proposed to happen to our 14 building. I think it would be a great 15 improvement. 16 My concern is someone brought up at the 17 first meeting or second meeting pathogens in the 18 air that will be released and those kinds of 19 things, and something that I thought about later 20 on also is the security. We need to know who 21 these people are. Whether they have badges or 22 whatever, we need some identification system, 23 because it is -- I feel very vulnerable when I

see strangers and I think I know who they may be, but I really don't know. Whether they are in construction attire or not, it's still, we need to have some sort of system where the tenants are aware of who is in the building and what they are there for and that's, basically, all I have to say.

8 MS. REGINELLI: Thanks so much. Is 9 there anyone else present today who was not on 10 the list who was not called, but would like to 11 speak related to the project?

12 All right, seeing none, as Council 13 Member Golby had indicated, we did meet with a 14 group of 50 or so residents at the building on 15 this matter to talk through much of what was 16 talked through today and we will have a Finance 17 Committee following up with this project as it 18 appears on the agenda and we'll get into some of 19 those questions of the applicant, as well.

20 To date, even since that meeting, the 21 notice of this public hearing indicated that 22 written comments could also be addressed to the 23 Agency. We made the tenants aware of that at the

meeting, as well. Today no written comments were received by the Agency prior to this hearing and seeing none today, we will formally close the public hearing with no further comments at 12:28 p.m. Thank you very much. \* \* \* (Whereupon the public hearing concluded at 12:28 p.m.) \* \* \* 

1	CERTIFICATION
