The Agency's Uniform Tax Exemption Policy (the "Policy") provides that, for a facility similar to the Project Facility, payments in lieu of taxes will normally be determined as follows: a 50% abatement in real property taxes on the Improvements in year one of the payment in lieu of tax agreement with a 10% per year decrease in such abatement over the term of the five year payment in lieu of tax agreement. Further, the Agency's Policy provides that the amount of the assessed value of the Project Facility will change as the assessed value is established annually by the Assessor of the City of Albany.

In connection with the Application, the Company has made a request to the Agency (the "PILOT Request") that the Agency enter into a payment in lieu of tax agreement (the "Proposed PILOT Agreement") which terms would deviate from the Agency's Uniform Tax Exemption Policy (the "Policy"). The Proposed Agreement would not provide any abatements for any special assessments levied on the Project Facility.

The Proposed PILOT Agreement will provide that the Company be granted a twelve year payment in lieu of tax agreement on the Facility and any portion of the Equipment assessable as real property pursuant to the New York Real Property Tax Law. Under the terms of the Proposed PILOT Agreement, the Company will pay (a) a base PILOT payment equal to one hundred percent (100%) of the normal taxes due on the Land and the Facility (fixed at a base amount equal to \$100,000), and (b) an additional amount based on the increase in assessed value of the Project Facility (such increase in the assessed value due to the undertaking of the Project shall be referred to as the "Improvements"), such increased amount to be adjusted by the abatement as described as follows:

review the terms of the Pilot Request and, based on the discussions during such meeting the terms of the Pilot Request may be modified.

This letter is forwarded to you for purposes of complying with Section 874 of the General Municipal Law of the State of New York, which requires written notice prior to the Agency taking final action with respect to the Proposed Pilot Agreement (if said Proposed Pilot Agreement may deviate from the provisions of the Agency's Policy).

The Agency considered the following factors in considering the proposed deviation:

1. The nature of the Project: The Project involves the reconstruction and renovation of an existing building to be owned by the Company and leased to Aeon Nexus Corporation for commercial uses and other directly and indirectly related activities.

2. The present use of the property: One (1) parcel of land together with an existing building located thereon. The building is currently essentially vacant and was formerly utilized as a retail and office building complex.

3. The economic condition of the area at the time of the request of the Company and the economic multiplying effect that the Project will have on the area: At the time of the filing of the Application, the economic condition of the area in which the Project Facility is to be located is generally average to poor. The area is strategically targeted for adding downtown commercial/retail/residential development, based on the presence of vacant or underutilized buildings to be converted, as well as the emerging residential projects that are occurring proximate to this building. This will create a neighborhood district, a goal of the City of Albany's economic development strategy; Capitalize Albany.

The Project will create approximately twenty-five (25) construction jobs, thus generating revenue for the City of Albany and surrounding areas. The major positive impact of the Project is the creation of downtown commercial development, which is consistent with the downtown development plan of the City of Albany. This development in the downtown area will provide economic growth for the existing business and entertainment facilities located in the downtown, and result in further residential development, which is also consistent with the downtown development plan of the City. Additional benefits created by the Project are described in the Application.

4. The extent to which the Project will create or retain permanent, private sector jobs and the number of jobs to be created or retained and the salary range of such jobs: The Project will create construction jobs over the approximately one-year construction period generating a payroll of over \$819,393.

The Company has estimated that the Project will create approximately six (6) full-time jobs by the end of the first year of operation, and a total of twelve (12) jobs by the end of the second year of operation. Further, the Company expects that the Project will also result in the retention and creation of employment in the retail, restaurant and entertainment operations located in the downtown.

5. **The estimated value of new tax exemptions to be provided:** The estimated value of the tax exemptions are the following: \$122,000, sales and use tax; \$20,107, mortgage recording tax; and \$580,427, real property taxes.

6. **The economic impact of the Proposed Pilot Agreement on affected tax jurisdictions:** The economic impact of the Project PILOT Agreement is positive as development of the Project Facility is expected to spur additional development in the downtown sections of the City of Albany.

7. **The impact of the Proposed Pilot Agreement on existing and proposed businesses and economic development projects in the vicinity:** The impact of the Project is a positive one on the community, as it creates additional development in the area. In addition it will act to reduce the vacancy rate in downtown, which is critical to building the market. This development will build investor and bank confidence in the market and will serve to attract additional mid and large scale commercial/retail/residential development projects. The local restaurants and entertainment facilities will benefit from the undertaking of the Project.

8. **The amount of private sector investment generated or likely to be generated by the Proposed Pilot Agreement:** The investment by the Company in undertaking the Project is equal to approximately \$1,833,500.

9. **The effect of the Proposed Pilot Agreement on the environment:** It is likely that the Project will not have a significant effect on the environment.

10. **Project Timing:** It is anticipated that the Project will be accomplished in a timely fashion.

11. **The extent to which the Proposed Pilot Agreement will require the provision of additional services including, but not limited to, additional educational, transportation, police, emergency medical or fire services:** It is not anticipated that the Project will have a tremendous burden upon the educational facilities for any school district within the City of Albany, Albany County. After the completion of the Project, the employment at the Project is not anticipated to generate a substantial burden on the highways of the City of Albany or the surrounding area. All necessary emergency medical and police services are available.

12. **Anticipated tax Revenues:** The Company has requested a deviation from the Policy in order to pass the real property tax savings on to the proposed tenants at the Project in the form of market lease payments.

13. **The extent to which the Proposed Pilot Agreement will provide a benefit (economic or otherwise) not otherwise available within the municipality in which the Project Facility is located:** The benefit is a positive one economically, in that the Project will promote the development of the downtown of the City of Albany.
