A motion to accept the minutes, was made by Susan Pedo and seconded by Lee Eck. A vote being taken, the motion passed with all members voting aye.

Sarah Reginelli and Robert Schofield acknowledged potential conflicts of interest and recused themselves from the discussion and actions regarding 1211 Western Ave Property Associates LLC at 12:17 p.m.

New Business

Sarah Reginelli and Robert Schofield returned to the meeting at 12:23 pm.

760 Broadway, LLC

The Project is requesting a Resolution Extending Agent Appointment Term & Authorizing Amendment to Interim Documents. The application stated that due to COVID-19 and supply chain delays construction on the project has been delayed. A motion to approve the *Resolution Extending Agent Appointment Term & Authorizing Amendment to Interim Documents* was made by Susan Pedo and seconded by Dominick Calsolaro. A vote being taken, the motion passed with all members voting aye to adopt the resolution.

Broadway 915, LLC (745 Broadway)

Staff advised the Board that the Finance Committee had moved forward a positive recommendation to the Board for a public hearing to be held regarding Broadway 915, LLC project. A motion to approve the Public Hearing Resolution was made by Susan Pedo and seconded by Darius Shahinfar. A vote being taken, the motion passes with all members voting aye to adopt the resolution.

Loughlin Dawn, LLC

Staff advised the Board that the project closed with the Agency in 2019 and entailed a four-phase PILOT. The request involves a one year extension of the Phase I PILOT only, sliding from 2021 to 2022 due to construction delays associated with the COVID-19 pandemic. This request results in an additional abatement in excess of \$100,000 therefore a public hearing was held. Staff and Agency Counsel noted the holding of a public hearing was prudent despite the *net* benefit of the request being less than \$100,000. There was no public comment regarding the resolution. A motion to approve the *Resolution Authorizing Amendment to Phase 1 PILOT Agreement* was made by Dominick Calsolaro and seconded by Lee Eck. A vote being taken, the motion passes with all members voting aye to adopt the resolution.

Agency Counsel, Hodgson Russ will be assisting with required posting (and subsequent redaction of sensitive information) on the Agency website. Staff confirmed that the requirements for posting the applications were disclosed in the pre-applications, applications and in the program webinar.

Staff advised the Board of member Calsolaro's resignation effective January 1, 2021. Both the Agency Chair and CEO expressed their gratitude for the years of service provided by member Calsolaro. Staff advised the Board that the Common Council would be conducting interviews for the two vacant board positions that evening; which both the CEO and Chair will be participating in.

Staff updated the Board on the pre-apprenticeship program. The working group led by the building trades, still intends to move the program forward. Staff is assisting the group with site selection and will continue to explore ways to support the program.

Staff noted the 2020 Census count will be closed in two weeks and stressed the importance of completing the Census form, as the results of this process will impact various funding programs for the City of Albany.

Requested PILOT: The proposal entails the Applicant entering into a PILOT agreements with the IDA deviating from the CAIDA Project Evaluation and Assistance Framework abatement percentages with a deviation in the base assessed value for the duration - twenty (20) years - of the project.

Third Party Review: Due to the the deviation in requested assistance from the Project Evaluation & Assistance Framework, a draft third party evaluation of the appropriateness of the applicant's PILOT request has been received and reviewed by staff. The third party determined that the assumptions included within the application in addition to the abatement requested were within reasonable parameters.

Cash on cash return is a simple and straightforward method to calculate return on investments that involve long-term debt borrowing. We use this as our baseline analysis metric to keep comparisons consistent and variables limited across projects. The third-party analysis relies on the internal rate of return method due to its advantage of including the time value of money and property appreciation. Calculating the internal rate of return is more complicated because it requires the projection future of cash flows of the investment, including the sale of the investment at the end of the holding period. This analysis provides a more in-depth and project-specific measurement of anticipated return to review in conjunction with the straightforward cash-on-cash method.

Full Environmental Assessment Form
Part 3 - Evaluation of the Magnitude and Importance of Project Impacts
and
Determination of Significance

Part 3 provides the reasons in support of the determination of significance. The lead agency must complete Part 3 for every question in Part 2 where the impact has been identified as potentially moderate to large or where there is a need to explain why a particular element of the proposed action will not, or may, result in a significant adverse environmental impact.

Based on the analysis in Part 3, the lead agency must decide whether to require an environmental impact statement to further assess the proposed action or whether available information is sufficient for the lead agency to conclude that the proposed action will not have a significant adverse environmental impact. By completing the certification on the next page, the lead agency can complete its determination of significance.

Reasons Supporting This Determination:

To complete this section:

- Identify the impact based on the Part 2 responses and describe its magnitude. Magnitude considers factors such as severity, size or extent of an impact.
- Assess the importance of the impact. Importance relates to the geographic scope, duration, probability of the impact occurring, number of people affected by the impact and any additional environmental consequences if the impact were to occur.
- The assessment should take into consideration any design element or project changes.
- Repeat this process for each Part 2 question where the impact has been identified as potentially moderate to large or where there is a need to explain why a particular element of the proposed action will not, or may, result in a significant adverse environmental impact.
- Provide the reason(s) why the impact may, or will not, result in a significant adverse environmental impact
- For Conditional Negative Declarations identify the specific condition(s) imposed that will modify the proposed action so that no significant adverse environmental impacts will result.
- Attach additional sheets, as needed.

The City of Albany Planning Board concludes that the proposed action will not result in any significant environmental impacts.

Determination of Significance - Type 1 and Unlisted Actions

SEQR Status: ☒ Type 1 ☐ Unlisted

Identify portions of EAF completed for this Project: ☒ Part 1 ☒ Part 2 ☒ Part 3

Upon review of the information recorded on this EAF, as noted, plus this additional support information
Elevations, Floor Plans, Survey, Site Plan, Water Engineer's Report, Sewer Engineer's Report, SWPPP, O&M Manual, Geotechnical Report, and
Photosimulation

and considering both the magnitude and importance of each identified potential impact, it is the conclusion of the
City of Albany Planning Board as lead agency that:

☒ A. This project will result in no significant adverse impacts on the environment, and, therefore, an environmental impact statement need not be prepared. Accordingly, this negative declaration is issued.

☐ B. Although this project could have a significant adverse impact on the environment, that impact will be avoided or substantially mitigated because of the following conditions which will be required by the lead agency:

There will, therefore, be no significant adverse impacts from the project as conditioned, and, therefore, this conditioned negative declaration is issued. A conditioned negative declaration may be used only for UNLISTED actions (see 6 NYCRR 617.7(d)).

☐ C. This Project may result in one or more significant adverse impacts on the environment, and an environmental impact statement must be prepared to further assess the impact(s) and possible mitigation and to explore alternatives to avoid or reduce those impacts. Accordingly, this positive declaration is issued.

RE: City of Albany Industrial Development Agency
Proposed Deviation from Uniform Tax Exemption Policy
Broadway 915, LLC Project

Dear Ladies and Gentlemen:

This letter is delivered to you pursuant to Section 874(4)(c) of the General Municipal Law.

In January, 2020, City of Albany Industrial Development Agency (the "Agency") received an application, as amended in September, 2020, (the "Application") from Broadway 915, LLC (the "Company"), requesting that the Agency consider undertaking a project (the "Project") for the benefit of the Company, said Project to consist of the following: (A) (1) the acquisition of an interest in an approximately 1.38 acre parcel of land located at 745 Broadway (currently tax map number 65.83-1-28) in the City of Albany, Albany County, New York (the "Land"), (2) the construction on the Land of an approximately 99,535 square foot, five (5) story building with approximately 90 parking spaces (collectively, the "Facility") and (3) the acquisition and installation therein and thereon of related fixtures, machinery, equipment and other tangible personal property (collectively, the "Equipment") (the Land, the Facility, and the Equipment being collectively referred to as the "Project Facility"), all of the foregoing to constitute an approximately 80 unit residential apartment building to be owned and operated by the Company and any other directly and indirectly related activities; (B) the granting of certain "financial assistance" (within the meaning of Section 854(14) of the Act) with respect to the foregoing, including potential exemptions from certain sales and use taxes, real property taxes, real estate transfer taxes and mortgage recording taxes (collectively, the "Financial Assistance"); and (C) the lease (with an obligation

to purchase) or sale of the Project Facility to the Company or such other person as may be designated by the Company and agreed upon by the Agency.

In connection with the Application, the Company has made a request to the Agency (the “Pilot Request”) to deviate from the Agency’s uniform tax exemption policy (the “Policy”). Pursuant to the Pilot Request, the Agency would (A) enter into a payment in lieu of tax agreement (the “Proposed Pilot Agreement”) which terms are described below and (B) provide the mortgage recording tax abatement. The Proposed Pilot Agreement would not provide any abatements for any special assessments levied on the Project Facility.

The Proposed Pilot Agreement will provide that the Company be granted a twenty (20) year payment in lieu of tax agreement on the Facility and any portion of the Equipment assessable as real property pursuant to the New York Real Property Tax Law. Under the terms of the Proposed Pilot Agreement, the Company will pay (A) a base payment equal to one hundred percent (100%) of the normal taxes due on the Land and the base assessed value of the Facility (fixed at an amount equal to \$510,000) (the “Base Pilot Payment”), and (B) an additional amount based on the increase in assessed value of the Project Facility (such increase in the assessed value due to the undertaking of the Project shall be referred to as the “Improvements”), such increased amount to be adjusted by the abatement as described as follows:

Years	Amount of Abatement on Increased Assessment
1 (2021)	0%
2 (2022)	0%
3 (2023)	90%
4 (2024)	90%

As noted in the table above, the abatement schedule is 20 years, with Year 3 of the abatement schedule beginning in the year following the completion of the construction of the Project.

Beginning in Year 13 of the abatement schedule, the Proposed Pilot Agreement will also provide that the amount of payments in lieu of taxes payable by the Company will be the greater of (A) the amount determined in accordance with the above paragraph, or (B) an amount equal to 11.5% of the gross rental revenue generated at the Project Facility.

The Policy provides that, for a facility similar to the Project Facility, (A) the payments in lieu of taxes will normally be determined as follows: a 50% abatement in real property taxes on the improvements in year one of the payment in lieu of tax agreement with a 10% per year decrease in such abatement over the term of the five year payment in lieu of tax agreement, (B) the amount of the assessed value of the Project Facility will change as the assessed value is established annually by the Assessor of the City of Albany and (C) the mortgage recording tax would not be abated, unless the Agency deviated from its policy with respect to the payment by the Company of real property taxes.

The purpose of this letter is to inform you of such Pilot Request and that the Agency is considering whether to grant the Pilot Request and to approve a Proposed Pilot Agreement conforming to the terms of the Pilot Request. The Agency expects to consider whether to approve the terms of the Proposed Pilot Agreement at its meeting scheduled for October 22, 2020 at 12:15 p.m., local time at the offices of the Agency located at 21 Lodge Street in the City of Albany, Albany County, New York (the "Meeting"). As described later in this letter, during the meeting on October 22, 2020, the Agency will review the terms of the Pilot Request and, based on the discussions during such meeting the terms of the Pilot Request may be modified.

This letter is forwarded to you for purposes of complying with Section 874 of the General Municipal Law of the State of New York, which requires written notice prior to the Agency taking final action with respect to the Proposed Pilot Agreement (if said Proposed Pilot Agreement may deviate from the provisions of the Agency's Policy).

The Agency considered the following factors in considering the proposed deviation:

1. **The nature of the Project:** The Project involves the construction of an approximately 95,535 square foot, 5 story building with associated parking to be owned and operated by the Company as an approximately 80 unit residential apartment building.
2. **The present use of the property:** The Project site currently contains a parking lot.
3. **The economic condition of the area at the time of the request of the Company and the economic multiplying effect that the Project will have on the area:** At the time of the filing of the Application, the economic condition of the area in which the Project Facility is to be located is generally average. The Project would be located in a high vacancy census tract and will also be surrounded by distressed census tracts. As the Project would be located in an area included within a Neighborhood Plan, the area is strategically targeted for adding

commercial/retail/residential development, based on the presence of vacant or underutilized buildings/real estate. This development is consistent with the Albany 2030 Plan.

4. The extent to which the Project will create or retain permanent, private sector jobs and the number of jobs to be created or retained and the salary range of such jobs: The Project will create approximately one (1) new permanent job. The Project will also create approximately one hundred forty (140) construction jobs.

The Company expects that the Project will also result in the retention and creation of employment in the retail, restaurant, entertainment, service and office operations located in the surrounding area.

5. The estimated value of new tax exemptions to be provided: The estimated value of the tax exemptions are the following: \$524,800, sales and use tax; \$170,025, mortgage recording tax; and \$4,813,546, real property taxes.

6. The economic impact of the Proposed Pilot Agreement on affected tax jurisdictions: The economic impact of the Proposed Pilot Agreement is positive as development of the Project Facility is expected to spur additional development in the downtown sections of the City of Albany.

7. The impact of the Proposed Pilot Agreement on existing and proposed businesses and economic development projects in the vicinity: The Project will increase the consumer base to support local business and employers. The Project will have a positive revitalizing effect on the community by developing currently vacant parcels in a strategically identified neighborhood location. The Project meets the intent and furthers the implementation of following the City of Albany strategic initiatives Albany 2030.

8. The amount of private sector investment generated or likely to be generated by the Proposed Pilot Agreement: The investment by the Company in undertaking the Project is equal to approximately \$22,700,000.

9. The effect of the Proposed Pilot Agreement on the environment: The Project will not have a significant effect on the environment.

10. Project Timing: It is anticipated that the Project will be accomplished in a timely fashion.

11. The extent to which the Proposed Pilot Agreement will require the provision of additional services including, but not limited to, additional educational, transportation, police, emergency medical or fire services: It is not anticipated that the Project will have a significant burden upon the educational facilities for any school district within the City of Albany, Albany County. After the completion of the Project, the employment at the Project is not anticipated to generate a substantial burden on the highways of the City of Albany or the surrounding area. All necessary emergency medical and police services are available.

12. Anticipated tax Revenues: It is anticipated that there will likely be additional sales tax revenues after Project completion relating to certain future operating activities at the Project and related multiplier impacts.

13. The extent to which the Proposed Pilot Agreement will provide a benefit (economic or otherwise) not otherwise available within the municipality in which the Project Facility is located: The Project aligns with the Albany 2030 Plan including: a) encouraging investment in urban land and buildings for employment and housing; and (b) increase job opportunities for all residents.

The Agency will consider the Proposed Pilot Agreement (and the proposed deviation from the Agency's Uniform Tax Exemption Policy) at the Meeting. The Agency would welcome any written comments that you might have on this proposed deviation from the Agency's Uniform Tax Exemption Policy. In accordance with Section 874(4)(c) of the General Municipal Law, prior to taking final action at the Meeting, the Agency will review and respond to any written comments received from any affected tax jurisdiction with respect to the proposed deviation. The Agency will also allow any representative of any affected tax jurisdiction present at the Meeting to address the Agency regarding the proposed deviation.

If you have any questions or comments regarding the foregoing, please do not hesitate to contact me at the above telephone number.

Attn: Tracy Metzger

Dear Ms Metzger,

We are writing in regards to our development project on 105 Morris Street in Albany. As you know, we had a total lockdown on construction in Albany for the months of April and May and we only resumed construction in mid June. Additionally, it has been difficult to get back to a full construction capacity due to 1) workers not wanting to come back to work due to fear of COVID-19 and 2) shortage of material & equipment because of the manufacturing halt that happened. The net of this is that our current projected completion date for construction will be April 2021 (barring any further unforeseen circumstances related to COVID-19 or otherwise). This is approximately one year later than the original target completion date.

The delay in construction is negatively impacting the project with multiple losses, including:

1. Extra costs for holding mortgage, insurance, and costs related to retaining our contractors.
2. Loss of potential income of the unit rentals resulting from the delayed completion of the building.
3. Loss of PILOT benefits

In view of the above, we kindly ask that the CAIDA help this strategic project by delaying the start of the PILOT payments by a year. Currently the first PILOT payment is due on 10/04/2020.

Please let us know if this will be feasible.

Thank you so much for your understanding.

Regards,

Sameh Asaad

INTRODUCTION

Capitalize Albany Corporation is a registered 501(c) (3) not-for-profit organization which implements programs and resources that create, retain, and attract business in the City of Albany, New York. Capitalize Albany Corporation facilitates transformational development projects guided by its strategic planning initiatives, such as Capitalize Albany Corporation's economic development strategy – Impact Downtown Albany.

As the economic development entity for the City of Albany, Capitalize Albany has designed the COVID-19 Small Business Adaptation Program ("Program") in direct response to the impacts that COVID-19 has made on businesses and their continuing operations. Capitalize Albany Corporation, through financial assistance from the City of Albany Community Development Agency (ACDA) and the City of Albany Industrial Development Agency (CAIDA), will provide up to \$10,000 in direct reimbursement grants designed to assist with the recovery efforts of small businesses located in the City of Albany for the qualifying project expenditures as identified below. Disadvantaged business enterprises (minority, woman or veteran-owned businesses) may be eligible for up to \$20,000.

This program will be administered by Capitalize Albany Corporation, and allocated in accordance with program guidelines and an evaluation method approved by the funding sources of the program. Individual funding sources may come with programmatic restrictions, and compliance will be required for each business based on the specific criteria identified by the source of funding assigned to assist the business.

PROGRAM DESCRIPTION

The COVID-19 Small Business Adaptation Program, which will provide grant funding intended to assist with the recovery efforts of City of Albany small businesses, helping businesses affected by the COVID-19 health emergency with distinct business expenses necessary to resume regular operations of the business or adapt their business for the new regulatory environment and strengthen or expedite their growth and recovery, while maintaining the health and safety of their employees and customers. Capitalize Albany Corporation will allocate up to \$500,000 in recoverable grants to this program for award to eligible business owners with qualified projects.

Under this program, grants will be provided as a reimbursement to the applicant for the eligible costs indicated on pages two (2) through four (4) of these program guidelines, subject to approval by Capitalize Albany Corporation staff and representatives of the individual funding source when applicable. The direct grants will be paid out to the business when the project is complete, reimbursement documentation and any final reporting has been submitted and approved by Capitalize Albany, and the business is open and operating. Unless requested in writing and explicitly approved by Capitalize Albany, grant funds will not be provided to an applicant prior to all project costs being incurred and the project completed/business open and operating.

Since this program has limited resources available and many businesses have been impacted by COVID-19, it is expected that the funding will be exhausted quickly. Businesses should first access any available Federal and State programs, including the U.S. Small Business Administration's programs, as they become available.

Grantee must commit to remain in the location for at least one (1) year and may be required to create or retain for one (1) year during the term of the agreement one (1) or more full-time equivalent jobs made available or held by low- and moderate-income persons. For a larger request, additional job creation may be required, at the discretion of Capitalize Albany Corporation. If the grantee does not default on the grant terms during the required one (1) year period, the grant will be closed. Failure to abide by the grant terms and conditions may result in (i) forfeiture of any grant funding awarded to applicant; and/or (ii) applicant

repaying/returning to Capitalize Albany Corporation any grant funds awarded which had been already provided to the applicant (up to the full amount of grant funds). Any grant funds recaptured will be remitted by Capitalize Albany to the applicable funding source.

All projects must comply with all applicable city codes and ordinances, as well as state and federal law. All applicable permits and licenses must be obtained, including those required by the City of Albany and all other state and local permits. In addition, the project must follow the project scope and budget as approved by Capitalize Albany Corporation.

After approval, any changes to the project, no matter how minimal, must be approved by Capitalize Albany Corporation. Vendors/contractors cannot be changed during the project unless new proposals have been submitted to Capitalize Albany Corporation. Grant recipients must work closely with Capitalize Albany Corporation staff to communicate the project progress and resolve any issues or questions. Upon completion, all work must pass applicable state and/or local inspections. Capitalize Albany Corporation reserves the right to conduct site visits and should anything be discovered that is not consistent with the approved application, Capitalize Albany Corporation has the right to withhold the grant award, recapture any and all grant funds, or take any other available remedy to maintain compliance with these program guidelines.

Once the grant is approved, the applicant has until December 31, 2020 to begin the project. If the project does not begin before December 31, 2020, the applicant will be notified in writing that the grant may lapse and the agreement may be terminated with no grant funds awarded or available to the applicant. Once the project has started, the applicant has six months to complete the project and be open for business. If the business has not opened at the end of the six-month period, the applicant will be notified in writing that the grant may lapse and the agreement may be terminated with no grant funds awarded or available to the applicant. If an approved project is nearing the December 31, 2020 or six-month lapse point, an opportunity will be provided for the applicant to request an extension. An extension may be granted at the discretion of Capitalize Albany Corporation depending on the project's circumstances and the future needs of the program. If an approved grant does lapse and is terminated, the applicant may reapply on a first-come, first-served competitive basis if there is a funding window currently open. There is no guarantee that a resubmission will be approved, and the project will be re-evaluated based upon the established criteria detailed above, or the criteria in effect at the time of the new application submission should the criteria be revised. Any expenditure incurred for projects approved, but not completed, will not be reimbursed.

The applicant may be subject to repayment of all grant funds to Capitalize Albany Corporation if the physical improvements paid for by this program do not remain in place for an agreed upon minimum period of time, if the concept changes without permission of Capitalize Albany Corporation or the business closes prior to the end of the agreed upon term.

RELEASE OF FUNDS

The program will offer grants on a reimbursement basis only. Unless requested in writing and explicitly approved by Capitalize Albany, grant funds will not be disbursed prior to project costs being incurred and the project completed/business open and operating. Funds are disbursed only after the project is completed, and a disbursement request with paid receipts and/or invoices, as well as proof of payment such as cancelled checks and/or bank or credit card statements for eligible project costs are submitted

and approved by Capitalize Albany Corporation, and the establishment has completed their project, is open for business, and has met all requirements in the contractual agreement. The full (100%) grant will be provided to the grantee in a single payment. Any closing costs (e.g., Capitalize Albany Corporation attorney fees, recording fees and/or filing fees) may be deducted from the grant amount awarded.

Eligible receipts and invoices must, at a minimum, include the invoice date, scope of work, contractor name and contact information, cost, and be marked as paid or a zero balance must be indicated. The invoices must clearly indicate the nature of the expense and that such expense is related to the approved project and business. Capitalize Albany Corporation will only be obligated to reimburse applicants for which eligible, reimbursement requests are received within 60 days following the completion of the project.

If eligible project costs are less than the original grant approval, Capitalize Albany Corporation has the right to reduce grant awards. Awards will be pro-rated down accordingly.

RE: City of Albany IDA Proposed 2021 Budget
DATE: October 16, 2020

Based on current projections we anticipate the ending cash balance to be \$2,579,538 at December 31, 2020.

The agency is budgeting a deficit of approximately \$208,400 in the 2021 budget.

Revenues for the agency are budgeted to be approximately \$1,061,004 in 2021. The majority of this revenue is expected to be in the form of fee revenue, which is budgeted to be approximately \$907,000. As in past years, the fee revenue budgeted for 2021 was determined using a weighted average formula. Project Benefit Agreement Revenue and the 9.5% LIHTC Fee remain unchanged, interest expense is budgeted to be lower due to lower interest rates earned on cash balances in the agency's bank accounts, and revenue budgeted from the CRC agreement is budgeted to be approximately \$17,700 based on current projections.

Expenses for the agency are budgeted to be approximately \$1,260,185 in 2021. All budgeted expenses are the same as their budgeted expense for 2020 except for following expenses. Miscellaneous expenses are budgeted to increase by \$1,000 as a result the agency budgeting for sponsoring the annual EDC conference, audit fees have increased by \$200 and depreciation expense is budgeted to be \$938 for the required video conferencing equipment that was purchased by the agency to be able to live stream meetings to be in compliance with NYS law. Strategic Activities is budgeted to be \$350,000. This is for market studies to be performed in accordance with 2020 Board recommendations.

The projected ending cash balance of the IDA is projected to be \$2,381,095 based on the proposed budget. This balance represents reserve of approximately 2.61 years at the current projected level of operating expenses.

October 1, 2020

To The Board of Directors
City of Albany Industrial Development Agency,
a Component Unit of the City of Albany
21 Lodge Street
Albany, NY 12207

The following represents our understanding of the services Teal, Becker and Chiaramonte, CPAs, P.C. (the Firm) will provide the City of Albany Industrial Development Agency, a Component Unit of the City of Albany (the Agency).

You have requested that the Firm audit the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the Agency, as of December 31, 2020, and for the year then ended and the related notes to the financial statements, which collectively comprise the Agency's basic financial statements as listed in the table of contents. We are pleased to confirm our acceptance and our understanding of this audit engagement by means of this letter. Our audit will be conducted with the objective of our expressing an opinion on each opinion unit applicable to those basic financial statements.

Accounting principles generally accepted in the United States of America (U.S. GAAP), as promulgated by the Governmental Accounting Standards Board (the GASB) require that the Management's Discussion and Analysis and budgetary comparison information be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the GASB, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. As part of our engagement, we will apply certain limited procedures to the required supplementary information (RSI) in accordance with auditing standards generally accepted in the United States of America (U.S. GAAS). These limited procedures will consist primarily of inquiries of management regarding their methods of measurement and presentation, and comparing the information for consistency with management's responses to our inquiries. We will not express an opinion or provide any form of assurance on the RSI. The following RSI is required by U.S. GAAP. The RSI will be subjected to certain limited procedures but will not be audited:

- Management's Discussion and Analysis (MD&A)
- Schedule of Revenues and Expenses - Budget (Non-GAAP Basis) and Actual

Auditor Responsibilities

We will conduct our audit in accordance with U.S. GAAS and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the basic financial statements are free from material misstatement. An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the basic financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the basic financial statements, whether due to fraud or error, misappropriation of assets, or violations of laws, governmental regulations, grant agreements, or contractual agreements.

An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the basic financial statements. If appropriate, our procedures will therefore include tests of documentary evidence that support the transactions recorded in the accounts, tests of the physical existence of inventories, and direct confirmation of cash, investments, and certain other assets and liabilities by correspondence with creditors and financial institutions. As part of our audit process, we will request written representations from your attorneys, and they may bill you for responding. At the conclusion of our audit, we will also request certain written representations from you about the financial statements and related matters.

Because of the inherent limitations of an audit, together with the inherent limitations of internal control, an unavoidable risk that some material misstatements (whether caused by errors, fraudulent financial reporting, misappropriation of assets, or violations of laws or governmental regulations) may not be detected exists, even though the audit is properly planned and performed in accordance with U.S. GAAS and *Government Auditing Standards*, and/or any state or regulatory audit requirements.

In making our risk assessments, we consider internal control relevant to the Agency's preparation and fair presentation of the basic financial statements in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the Agency's internal control. However, we will communicate to you in writing concerning any significant deficiencies or material weaknesses in internal control relevant to the audit of the basic financial statements that we have identified during the audit. Our responsibility as auditors is limited to the period covered by our audit and does not extend to any other periods.

We cannot provide assurance that an unmodified opinion will be expressed. Circumstances may arise in which it is necessary for us to modify our opinions or add emphasis-of-matter or other-matter paragraphs. If our opinions on the basic financial statements are other than unmodified, we will discuss the reasons with you in advance. If, for any reason, we are unable to complete the audit or are unable to form or have not formed opinions, we may decline to express opinions or to issue a report as a result of this engagement.

Compliance with Laws and Regulations

As previously discussed, as part of obtaining reasonable assurance about whether the basic financial statements are free of material misstatement, we will perform tests of the Agency's compliance with the provisions of applicable laws, regulations, contracts, and agreements. However, the objective of our audit will not be to provide an opinion on overall compliance and we will not express such an opinion.

Management Responsibilities

Our audit will be conducted on the basis that management and those charged with governance acknowledge and understand that they have responsibility:

- a. For the preparation and fair presentation of the basic financial statements in accordance with accounting principles generally accepted in the United States of America;

- b. For the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of basic financial statements that are free from material misstatement, whether due to error, fraudulent financial reporting, misappropriation of assets, or violations of laws, governmental regulations, grant agreements, or contractual agreements;
- c. To provide us with:
 - i. Access to all information of which management is aware that is relevant to the preparation and fair presentation of the basic financial statements such as records, documentation, and other matters;
 - ii. Additional information that we may request from management for the purpose of the audit; and
 - iii. Unrestricted access to persons within the Agency from whom we determine it necessary to obtain audit evidence.
- d. For including the auditors' report in any document containing basic financial statements that indicates that such basic financial statements have been audited by the Agency's auditor;
- e. For identifying and ensuring that the Agency complies with the laws and regulations applicable to its activities;
- f. SCHEDULE A
ENGAGEMENT LETTER

Teal, Becker & Chiaramonte™
CERTIFIED PUBLIC ACCOUNTANTS & ADVISORS

October 1, 2020

To The Board of Directors
City of Albany Industrial Development Agency,
a Component Unit of the City of Albany
21 Lodge Street
Albany, NY 12207

The following represents our understanding of the services Teal, Becker and Chiaramonte, CPAs, P.C. (the Firm) will provide the City of Albany Industrial Development Agency, a Component Unit of the City of Albany (the Agency).

You have requested that the Firm audit the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the Agency, as of December 31, 2020, and for the year then ended and the related notes to the financial statements, which collectively comprise the Agency's basic financial statements as listed in the table of contents. We are pleased to confirm our acceptance and our understanding of this audit engagement by means of this letter. Our audit will be conducted with the objective of our expressing an opinion on each opinion unit applicable to those basic financial statements.

Accounting principles generally accepted in the United States of America (U.S. GAAP), as promulgated by the Governmental Accounting Standards Board (the GASB) require that the Management's Discussion and Analysis and budgetary comparison information be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the GASB, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. As part of our engagement, we will apply certain limited procedures to the required supplementary information (RSI) in accordance with auditing standards generally accepted in the United States of America (U.S. GAAS). These limited procedures will consist primarily of inquiries of management regarding their methods of measurement and presentation, and comparing the information for consistency with management's responses to our inquiries. We will not express an opinion or provide any form of assurance on the RSI. The following RSI is required by U.S. GAAP. The RSI will be subjected to certain limited procedures but will not be audited:

- Management's Discussion and Analysis (MD&A)
- Schedule of Revenues and Expenses - Budget (Non-GAAP Basis) and Actual

Auditor Responsibilities

We will conduct our audit in accordance with U.S. GAAS and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the basic financial statements are free from material misstatement. An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the basic financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the basic financial statements, whether due to fraud or error, misappropriation of assets, or violations of laws, governmental regulations, grant agreements, or contractual agreements.

7 Washington Square, Albany, NY 12205 Ph: (518) 456-6663 | Fax: (518) 456-3975 www.tbccpa.com

Teal, Becker & Chiaramonte, CPAs, P.C. Firm Member of CPANet International | Members: AICPA and NYSSCPA

An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the basic financial statements. If appropriate, our procedures will therefore include tests of documentary evidence that support the transactions recorded in the accounts, tests of the physical existence of inventories, and direct confirmation of cash, investments, and certain other assets and liabilities by correspondence with creditors and financial institutions. As part of our audit process, we will request written representations from your attorneys, and they may bill you for responding. At the conclusion of our audit, we will also request certain written representations from you about the financial statements and related matters.

Because of the inherent limitations of an audit, together with the inherent limitations of internal control, an unavoidable risk that some material misstatements (whether caused by errors, fraudulent financial reporting, misappropriation of assets, or violations of laws or governmental regulations) may not be detected exists, even though the audit is properly planned and performed in accordance with U.S. GAAS and *Government Auditing Standards*, and/or any state or regulatory audit requirements.

In making our risk assessments, we consider internal control relevant to the Agency's preparation and fair presentation of the basic financial statements in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the Agency's internal control. However, we will communicate to you in writing concerning any significant deficiencies or material weaknesses in internal control relevant to the audit of the basic financial statements that we have identified during the audit. Our responsibility as auditors is limited to the period covered by our audit and does not extend to any other periods.

We cannot provide assurance that an unmodified opinion will be expressed. Circumstances may arise in which it is necessary for us to modify our opinions or add emphasis-of-matter or other-matter paragraphs. If our opinions on the basic financial statements are other than unmodified, we will discuss the reasons with you in advance. If, for any reason, we are unable to complete the audit or are unable to form or have not formed opinions, we may decline to express opinions or to issue a report as a result of this engagement.

Compliance with Laws and Regulations

As previously discussed, as part of obtaining reasonable assurance about whether the basic financial statements are free of material misstatement, we will perform tests of the Agency's compliance with the provisions of applicable laws, regulations, contracts, and agreements. However, the objective of our audit will not be to provide an opinion on overall compliance and we will not express such an opinion.

Management Responsibilities

Our audit will be conducted on the basis that management and those charged with governance acknowledge and understand that they have responsibility:

- a. For the preparation and fair presentation of the basic financial statements in accordance with accounting principles generally accepted in the United States of America;

- b. For the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of basic financial statements that are free from material misstatement, whether due to error, fraudulent financial reporting, misappropriation of assets, or violations of laws, governmental regulations, grant agreements, or contractual agreements;
- c. To provide us with:
 - i. Access to all information of which management is aware that is relevant to the preparation and fair presentation of the basic financial statements such as records, documentation, and other matters;
 - ii. Additional information that we may request from management for the purpose of the audit; and
 - iii. Unrestricted access to persons within the Agency from whom we determine it necessary to obtain audit evidence.
- d. For including the auditors' report in any document containing basic financial statements that indicates that such basic financial statements have been audited by the Agency's auditor;
- e. For identifying and ensuring that the Agency complies with the laws and regulations applicable to its activities;
- f. For adjusting the basic financial statements to correct material misstatements and confirming to us in the management representation letter that the effects of any uncorrected misstatements aggregated by us during the current engagement and pertaining to the current year under audit are immaterial, both individually and in the aggregate, to the basic financial statements as a whole;
- g. For maintaining adequate records, selecting and applying accounting principles, and safeguarding assets;
- h. For acceptance of nonattest services, including identifying the proper party to oversee nonattest work;
- i. For informing us of any known or suspected fraud affecting the Agency involving management, employees with a significant role in internal control and others where fraud could have a material effect on the financials; and
- j. For the accuracy and completeness of all information provided.

With regard to the supplementary information referred to above, you acknowledge and understand your responsibility: (a) for the preparation of the supplementary information in accordance with the applicable criteria; (b) to provide us with the appropriate written representations regarding supplementary information; (c) to include our report on the supplementary information in any document that contains the supplementary information and that indicates that we have reported on such supplementary information; and (d) to present the supplementary information with the audited basic financial statements, or if the supplementary information will not be presented with the audited basic financial statements, to make the audited basic financial statements readily available to the intended users of the supplementary information no later than the date of issuance by you of the supplementary information and our report thereon.

As part of our audit process, we will request from management and those charged with governance, written confirmation concerning representations made to us in connection with the audit.

With respect to any nonattest service we will perform the following:

- Financial Statement Preparation

With respect to the nonattest service listed above we agree to perform the following at the end of the year:

- Propose adjusting or correcting journal entries to be reviewed and approved by the Agency's management.

We will not assume management responsibilities on behalf of the Agency. However, we will provide advice and recommendations to assist management of the Agency in performing its responsibilities.

The Agency's management is responsible for (a) making all management decisions and performing all management functions; (b) assigning a competent individual to oversee the service; (c) evaluating the adequacy of the service performed; (d) evaluating and accepting responsibility for the results of the service performed; and (e) establishing and maintaining internal controls, including monitoring ongoing activities.

Our responsibilities and limitations of the engagement are as follows:

- We will perform the service in accordance with applicable professional standards.
- This engagement is limited to the previously noted nonattest service above. Our Firm, in its sole professional judgment, reserves the right to refuse to do any procedure or take any action that could be construed as making management decisions or assuming management responsibilities, including determining account codings and approving journal entries.

Reporting

We will issue a written report upon completion of our audit of the Agency's basic financial statements. Our report will be addressed to the governing body of the Agency. We cannot provide assurance that unmodified opinions will be expressed. Circumstances may arise in which it is necessary for us to modify our opinions, add an emphasis-of-matter or other-matter paragraph(s), or withdraw from the engagement.

In accordance with the requirements of *Government Auditing Standards*, we will also issue a written report describing the scope of our testing over internal control over financial reporting and over compliance with laws, regulations, and provisions of grants and contracts, including the results of that testing. However, providing an opinion on internal control and compliance will not be an objective of the audit and, therefore, no such opinion will be expressed.

Other

We understand that your employees will prepare all confirmations we request and will locate any documents or support for any other transactions we select for testing.

Regarding the electronic dissemination of audited financial statements, including financial statements published electronically on your Internet website, you understand that electronic sites are a means to distribute information and, therefore, we are not required to read the information contained in these sites or to consider the consistency of other information in the electronic site with the original document.

As e-mails can be intercepted, disclosed, used, and/or otherwise communicated by an unintended third party, or may not be delivered to each of the parties to whom they are directed, we cannot ensure that e-mails from us will be properly delivered and read only by the addressee. Therefore, we disclaim and waive any liability for interception or unintentional disclosure of e-mail transmissions, or for the unauthorized use or failed delivery of e-mails transmitted by us in connection with the performance of this engagement. In that regard, you agree that we shall have no liability for any loss or damage arising from the use of e-mail, including any punitive, consequential, incidental, direct, indirect, or special damages, such as loss of revenues or anticipated profits, or disclosure of confidential information. In addition to fax and email, many firms also send data over the internet using other methods (such as portals) and may store electronic data via software applications hosted remotely on the Internet, or allow access to data through third-party vendors' secured portals or clouds.

This Agreement shall be interpreted and governed in accordance with the Laws of the State of New York.

The Firm's liability relating to the performance of the services rendered under this letter is limited solely to direct damage sustained by you. In no event shall the Firm be liable for the consequential, special, incidental, or punitive loss, damage or expense caused to you or to any third party (including without limitation, lost profits, opportunity costs, etc.). Notwithstanding the foregoing, our maximum liability relating to services rendered under this letter (regardless of form of action, whether in contract, negligence or otherwise) shall be limited to the fees received by us for this engagement. The provisions set forth in this paragraph shall survive the completion of the engagement.
